

A FREE PRINTABLE ADVENTURE

The Star-Spark Trail

Story, Colouring & Puzzle Book

Meet five brave character worlds, colour every chapter, solve two puzzles and bring the whole Sidekicks crew home.

Made for curious kids ages 3-12

A tiny light needs a team

One quiet morning, a tiny star-spark tumbled out of the night sky and landed inside Rory and Bix's Maple Lantern. It wanted to find its way home, but the trail crossed five very different worlds.

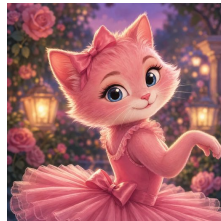

No Sidekick had every answer. Rory could spot clues, Bix could map a path, Dax could take a brave first step, Mimi could turn mistakes into something new, Sira could listen, and Nova with Pip could question what others called impossible. Together, they had exactly what the spark needed.

HOW TO USE THIS BOOK

Read each chapter together, colour the characters, then solve the puzzles.
There are no wrong colours here. Your imagination is part of the story.

The Maple Lantern

READ WITH ME

Rory spotted the missing star-spark inside the Maple Lantern. When a gust carried it down the trail, Bix unfolded his map. Together they followed a trail of glowing leaves.

YOUR TURN

Colour the friends. Can you find all 3 maple leaves?

The Brave First Step

READ WITH ME

The trail reached a path no one had mapped. Dax felt a flutter in his tummy, took one careful step, and discovered a sparkling footprint pointing toward the garden.

YOUR TURN

Trace the footprint with your finger, then colour Dax.

The Garden Twirl

READ WITH ME

The spark bounced to the rhythm of the garden. Mimi missed one step, laughed, and turned her wobble into a brand-new twirl. The happy spark danced all the way toward the sea.

YOUR TURN

Colour Mimi's tutu and invent a pattern for the stage.

The Song Beneath the Waves

READ WITH ME

Sira listened instead of singing louder. A little shell hummed the spark's secret song and the reef began to glow. Its final note floated upward like a bubble into the night sky.

YOUR TURN

Colour the reef. How many bubbles can you count?

The Signal Beyond the Map

READ WITH ME

Nova and Pip caught a repeating signal beyond their star map. Instead of calling it noise, the two alien explorers compared its pattern and rebuilt a damaged beacon. The signal became a safe route home for every Sidekick.

YOUR TURN

Design the beacon with symbols only Nova and Pip can decode.

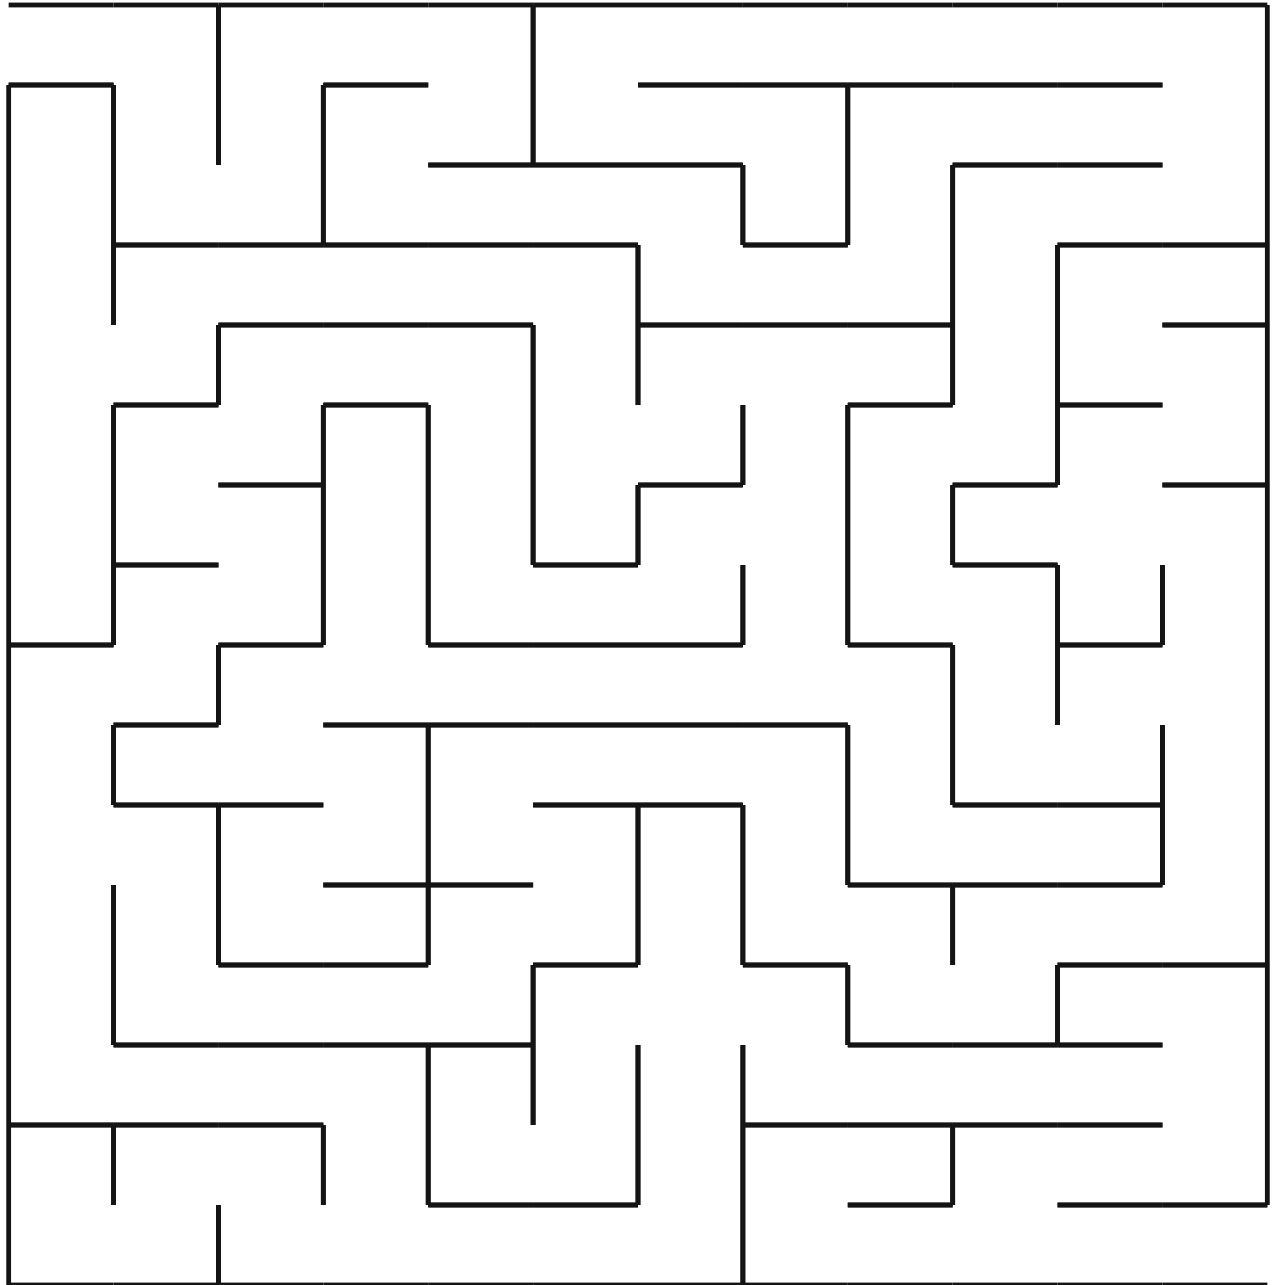

PUZZLE 1

Guide the star-spark home

Draw one path through the maze. Do not cross a wall. If you reach a dead end, try a different Sidekick idea.

START: STAR-SPARK

FINISH: HOME

The Sidekick Word Hunt

Circle all 10 words. Look across, down, diagonally and even backwards.

Every listed word is in the grid. Answer key on page 12.

Every world, one connected trail

Place pages 10 and 11 side by side, then colour the whole crew together.

Every world, one connected trail

Place pages 10 and 11 side by side, then colour the whole crew together.

The End.

And the next adventure begins.

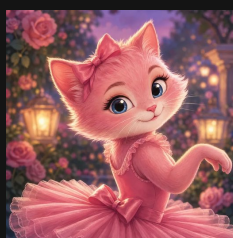

The star-spark reached home because every Sidekick brought a different strength. The trail still glows for anyone ready to be curious, kind and brave - one small step at a time.
